

Dear Sirs!

The specialists of plant "DONMET" conduct travelling seminars for autogenous equipment.

Conditions for the seminar:

- Desire to improve your knowledge and skills with autogenous equipment;
- At least 10 people participants (the optimal number of 10 - 20);
- Enough space (room to accommodate all the participants, computer, projector, or TV);
- A place for practical training in cutting, welding and brazing (requires portable or stationary station for oxygen, propane or methane, acetylene and metal for cutting, welding, soldering).

By clicking this [link](#) you may view the report and impressions of the seminar which was organized by the specialists of plant "DONMET" for the managers of company "SVARBI" in Moscow.
